Hi Frank,

As a follow up to our meeting with Andrew two weeks ago, we have a copy of the final designation that responds to Amigo's Bravos Petition that determines the stormwater discharges in Los Alamos County contribute to Water Quality Standards Violations. The attached Final Designation has the full text and Appendix 1 (the map). I also attached the Federal Register notice. Let us know if Andrew would like the full 200 page designation that has additional documentation including the original petition, response to comments, etc.

Thanks for forwarding this onto Andrew. Let us know if you have any questions.

Subject: RE: Los Alamos Final Designation

Dear All:

Good news! The Los Alamos final designation has been signed by the RA!
I was unable to scan the whole final designation document with appendices as it contains almost 200 pages. I will try to combine all of them tomorrow. For now, attached please find the signed final designation document with appendix 1 and other necessary documents..

Let me know if you have any questions..

Thank you,
